PROFILE

I am a Web Developer with experience in Front-End Web Development in React and Vue. Looking for opportunities in growth-oriented teams and organizations where I can provide value to the company, learn new skills and grow my skillset.

EXPERIENCE

JUNIOR WEB DEVELOPER

Qrispy
Nov 2020 - Feb 2021

- Worked on creating an app frontend using Vuejs and Vuex
- Implemented back-end functionalities using Firebase services and AWS.
- Converted the website into a fully functional Progressive Web App.
- Worked with a CI/CD pipeline on GitLab

PERSONAL PROJECTS

ANONYMOUS CHATROOM

React, Express, Socket.io

https://github.com/Chaitanya-Raj/chatroom

- Chat in realtime with people anywhere, using just an alias.
- None of the chat is stored anywhere on the server.
- Minimalist UI

GITHUB TIMELINE

React, GraphQL

https://github.com/Chaitanya-Raj/timeline

- The application works by querying the GitHub GraphQL API about the username that you search.
- Displays the repository name, date of creation and the primary language of the project.
- Uses GraphQL instead of REST API for a more efficient data query.
